Expand your business

SMART DRY CONTAINER

CARGO TRACKING AND CONTROL

Thanks to a permanent, high-tech device, you will enjoy an innovative solution that provides end-to-end visibility and operational excellence for your supply chain during the entire transport of your cargo.

YOUR BENEFITS

ADVANCED VISIBILITY

Provide near real-time data that is accessible anywhere and anytime, giving you better door-to-door visibility.

CARGO QUALITY AND SECURITY

Monitor GPS positions, door openings, movements, shocks and external temperatures.

EXCEPTION MANAGEMENT

Create personalized milestones, offering contextualized data and alerts.

SUPPLY CHAIN OPTIMIZATION

Identify anomalies in your supply chain, allowing you to put corrective measures in place to optimize your business and reduce operating costs.

HOW DOES IT WORK?

- Next-generation connectivity for seamless tracking of your cargo anywhere, anytime.
- A user-friendly hub allows efficient analytics, easy setup of alerts and personalized notifications.
- Containers equipped with SMART dry container are fully integrated in the CMA CGM Group containers fleet.
- By request at the time of booking, CMA CGM Group can supply empty containers equipped with SMART dry container technology without impacting your business.
