

TOWNSVILLE

EVEN BETTER SERVICE!

ANL has expanded its APR Service with direct calls into Townsville from South East Asia. Starting in August 2017, ANL provides a new and improved level of global connections.

ANL's upgraded APR service now offers a direct call into Townsville instead of transshipment over PNG. This provides a regular and reliable 22 day transit from Port Kelang and improved frequency with two Townsville calls a month. North Queensland exporters can now take advantage of ANL's express service to Port Kelang with a transit time of only 12 days.

APR provides a fast and efficient service connecting South East Asia and Townsville.

- 2-vessel service with direct calls into Townsville every 16 days.
- Direct connection with reliable and fast transits.
- Dry and reefer containers plus breakbulk and project cargoes.
- Seamless transshipment solutions to New Zealand, South East Asia, China, Hong Kong, Indian Subcontinent, Middle East, Europe and United States.
